Luca wins again!

Ch. Davenitch Shiloh Luca

Sire: Ch. Kennebec Ice Anchor

Dam: Winstonwil's Tigger, CDX

Whelped: May 25, 1987

Breeders: Susan and Joseph Weigel

Thank you, Judge Andrea Ternus!

Luca was born in Knoxville, Tennessee. She came to Davenitch as a stud fee puppy and soon became top dog. She was admired by everyone and has won many friends with her loving, "pet me" attitude.

She quickly finished her championship, which included a 5 pt. major Best of Breed from the puppy class over quite a few group winning specials. She has since won numerous Group Ones.

Her main career highlights include Best of Sweepstakes at the 1988 National Specialty, Best of Breed at the 1989 CWCCSC Specialty, National Specialty, and Best in Show, Best of Opposite Sex at the 1990 National, and of course Best of Breed at the 1992 National.

Luca has won the Brood Bitch class at the 1989 and 1992 Nationals. She has had two litters of 7 and 6. Ten of her offspring are finished with more on their way. Several of her children are group placers, specialty winners, and top producers themselves.

Luca certainly is a "once in a lifetime dream" come true!

Wow!! With any luck this will be the biggest and the best News Bulletin we've put together. This has been a monstrous effort on the part of my Bulletin staff and I wish to thank each one of them for the time they have spent. Special thanks to Jane Walser who has had to resign due to personal commitments. Thank you, Jane, for all the help and advice you have given me on the Bulletin over the past two years!

The Jubilee Specialty - where to begin? It was a glorious event and I hope everyone enjoyed themselves as much as I did. I've never had so much fun and been so tired at the same time. It certainly was a very full 5 days. There were so many things I enjoyed about this gala event, I would like to share some of my impressions:

Early morning: Cardigans everywhere. Small groups or large "herds" tromping through the wet grass. The side lot of the hotel literally looked like a sea of Cardigans.

Before judging at the show site: exhibitors and spectators (foreign and domestic) groggily heading for the concession stand to buy coffee. The foreigners had an especially hard time finding change; I think you need at least one cup of coffee before being able to convert money.

The breed ring: beautifully decorated with banners on the wall and pots of flowers everywhere.

The puppy sweepstakes: puppies (lots of them) cavorting, eating the flowers and generally entertaining themselves and everyone else.

The veteran sweepstakes: these oldsters had a little more decorum, but still enjoyed themselves and they genuinely relished the applause.

The regular classes: class after class of lovely Cardigans - they just kept coming. Poor Andrea - what a job she had!

The specials class: what an amazing site! The sheer number of entries was astounding, but even more overwhelming was the depth of quality to be seen. I truly hope that anyone who missed the Specialty will order the video as this class had to be seen to be believed.

After Best of Breed: exhausted handlers flopping on chairs, leaning on the walls and sitting on the floor waiting for pictures. The look of satisfaction on Andrea Ternus' face - it was finally over!

The herding test: watching some of the best working dogs in the country - and they were Cardigans! How gratifying to see that our little dogs can get out there and perform too.

Congratulations to everyone on the Show Committee on a job well done. The Jubilee Specialty was certainly one to remember.

Back to Business. My new fax phone number is (703) 758-9387. My fax is now on all the time and ready to receive your articles and ad copy. Don't forget to send the money and pictures separately! I have also acquired most of the equipment to set up ads myself and I anticipate a slight adjustment period as some of the type fonts I have are different than what we have been using. I would appreciate your understanding and patience. I'm learning computer-speak quickly, but I still make mistakes just like everyone else.

I hope you enjoy this issue. Until next time:

Letter to the Editor

I would like to thank all of the members of the CWCCA for the warm reception they gave Big Boy at the 1992 Specialty. I was very proud that so many people wanted to see and photograph him. The ovation for Big Boy as I led him around the ring is something I will always cherish among my fondest memories. To think that so many of you love and admire Big Boy brings tears to my eyes. Again, thank you all very much. I consider it an honor to belong to a Club that has so many wonderful people.

I would also like to take this opportunity to thank Bob and Sherry Caldwell for picking Big Boy out of the litter for me and Cathy Ochs-Cline for finishing him. A special thanks to Sue Whaley, as well, for handling him for eight years. She made him into the "gentleman's gentleman" he is today. Thank you again, Sue.

My only regret is that my wonderful wife was not at this Specialty to be a part of this wonderful occasion...but I'm sure she was watching from above and was as proud of Big Boy as I was.

With Sincere Thanks,
Bill Enders

Pera Kipmetna, UD

We proudly present our "Kipsy" (Pera Dandi, UD TDX x Davenhill's Pera Haiwee, CDX, TD) who completed her utility title April 25 at the CWCCSC Specialty. She represents the second of our third generation of homebred utility dogs. Pera Pwysi, UD, Canadian CD - her son Pera Dandi, UD TDX and now another daughter Pera Kipmetna, UD. The first was our late Pera Clytie, UD TDX, the same pedigree except that her dam was Pera Patti, a daughter of Pera Dot, UD, Dandi's litter sister. Hopefully, puppies in early 1993.

The Tell-Tail Signs of a Dog Junkie

by Jacqueline A. S. Ambler

As it appeared in *Dogs in Canada*, January 1992 Issue Submitted by Donna Daniels.

You know you are addicted to dogs when...

you find a stray dog hair in your soup, pick it out and keep on eating;
you find yourself comparing puppy potty training methods with your friends over coffee;

you find it hard to get up in the morning for work at 8:30 a.m., but are up before sunrise in order to make the dog show on time;

you never have money for a vacation but scrape up enough for that next show;

you never wear skirts anywhere, but come ring time you wouldn't wear anything else;

you share a motel room at a dog show in order to save money, and it doesn't send you over the deep end when you find out one of the roommates is a snorer and you end up with a dog that follows suit;

you keep your temper in an elevator when your fellow occupants have five miserable kids falling all over your dog and the mother tells them to be careful in case it bites (and you have been contemplating whether the kids have had their rabies shots);

there are a few more dust bunnies located in your house than on a rabbit farm, because you have been too busy keeping the dogs immaculate to have time to vacuum;

you have one of two signs up in you house, either "This house is kept for the comfort and convenience of my dogs" or "The more I know people the more I like my dogs";

you don't like putting motor club stickers on your car, but the back end is loaded with "I love my..." stickers;

you don't strangle the front desk clerk when she gives you a wake-up call at 2:02 a.m., even though your room number happens to be 202 and you had actually asked for a 6:45 wake-up — you simply start grooming;

you still don't strangle the same clerk when, instead of saying, "This is your wake-up all," she starts telling you all about her own dog, which is the smartest, cutest, most lovable in the world;

you scrimp on the groceries and watch for sales, but always manage to buy the most expensive dog food on the market;

you trade in the sports car to buy a station wagon for the dogs;

you buy a house to accommodate your dogs;

you can't camp out on the couch because the dogs are occupying it;
you stand outside when it is 40° below, encouraging the dogs to do their "business" while the neighbors watch from their windows and assure themselves you really are flaky;

you have more dogs than children;

you work a lot of overtime without complaining in order to build up time to take for dog shows;

you don't have the time to finish your university degree but always find the time to enroll in dog classes;

you have the lawn chair you are riding on in the mini van fold up and die on you as you are leaving the weekend of dog shows and you spend the next 3.5 hours riding on your butt in a 2x3 foot space on the floor of the mini van with a folded step stool as a backrest, praying that the grooming arm situated just above your left ear does not move and pierce your skull;

you find yourself able to function on two hours of sleep at a dog show, even though you know you would be dead in the water if you were at home;

your dogs manage to get annual physical checkups but you never do;

you go into a panic mode when you can't find your dog that you know was inside the house when you left, and have a huge wave of relief roll over you when you discover her in the bedroom (behind the door that had been closed) in a deep sleep right in the middle of the bed;

you tell visitors to (a) wear dark pants if you have a dark-colored dog or (b) wear light pants if you have a light-colored dog;

you brag about the high score in obedience class that your dog received when your friends tell you their child has topped his/her graduation class;

you skip lunch in order to run home from work to let the dogs out;

you usually need a heavy-duty alarm clock to get up in the morning but manage to wake up automatically every two hours when you have newborn puppies;

you locate a babysitter to come in for the dogs so they can stay in the comfort of their own home while you go to a show and sleep on a lumpy mattress;

you are dead tired but stay up because the dogs get fed later and you don't want to upset their schedule;

you haul out the photos of your four-legged kids at the school reunion when everyone else is pulling out baby pictures;

you manage to blow the fuses for the surrounding motel room when you plug in the hair dryer — the dog's, not yours;

you can chuckle to yourself when carrying a wet dog wrapped in a quilt to a friend's room to complete the drying and a perfect stranger does a double take because he "just thought it was a really ugly baby;"

you get asked by the photo developer if you run a humane society, because 23 of the 24 pictures on the roll are of your dogs. *
*

DAVENITCH

Davenitch Copper Bopper

Bopper is a lovely, big-boned red male who is for sale to a loving show home. He has many outstanding qualities to offer. Serious inquiries invited. He was born September 12, 1991.

THE LORIEN CARDI MEN ARE ALL GROUP PLACERS

The men are shown relaxing in their pool.

Sunny-Boy (**Ch. Davenitch Bit O Sunshine, CD**) is our First Cardigan, First Champion, and First Group Placer. He needs one more leg for his CDX. His first leg was a third placing and his second was a second placing. Sunny attracts attention by his dynamic personality and ability to sit up for what seems like hours. He is now over eight and has been leaving the conformation showing to the young boys, but he still has a great show attitude and is looking forward to utility.

Scotter (**Ch. Lorien's Argyle Patterns**) had a great year owner-handled. Scootie was the 1992 Purina Invitational Best of Breed. He has had some nice wins this year, but has been taking it easy due to an inner ear infection that had him out for quite a while. He is feeling much better.

Rhett (**Ch. Davenitch Victorian Turret**) was named for Diane's ultimate dream - a Victorian house with a turret. The best room being in the third floor turret. (Don't tell Sunny-Boy and Scootie that Rhett has his own page.)

P.S. Do you know who is who??

"Rhett"

My friends tease me and call me Rat!! But my name is Rhett - you know like Rhett Butler. If you were at the National Specialty you might remember me.

(Davenitch Sand Piper x Ch. Davenitch Shiloh Luca)

I had quite a time at the National Specialty. It began at the Sweeps where I got BOS. My sister Bronte out-did me by getting BISweeps. The next day I got WD and my other sister Brea out-did me and got BOW. Our mom got BOB that day. The next day I got WD again and BOW and my sister Bronte got WB. The above picture shows me two weeks after the specialty getting my first group placement. My mom now (Diane) would like to thank Aunt Connie for letting her have me and all the judges who have acknowledged me. Just like Rhett Butler, I'm one suave and debonair little man!

Cardi News From Across the Pond

by Helen Jones

The Cardigan Welsh Corgi Association held its annual Championship show on Saturday, September 26, 1992. This show is their equivalent to our National Specialty. Sonnica Godden, proprietress of the famous Kentwood Kennels, was the judge, and although a few people were unable to get to the show due to a 35 car pile-up on the M1, she had an entry of 110. No Cardi people were involved in the accident, but the Littlefairs and Ken Lindley were so delayed by it that they missed the show.

The CWCA offered Veteran, Minor, Puppy, Junior Puppy, Maiden, Novice, Special Yearling, Tyro, Graduate, Post-Graduate, Limit, and Open. Eligibility for each class is determined by age and/or show experience and it is common to enter your dog in more than one class. For example, Peter Clifton's Joseter Jazz was entered in Minor, Puppy, and Maiden. Jazz won all his classes and was able to compete for the Challenge Certificate, but if he had won Minor, gone second in Puppy and then won Maiden, he would not have competed for the CC. No dog which has been beaten at any point can compete for the CC.

Champions are almost always entered in Open, but they may also enter Junior or Special Yearling, the age limits of which are 18 and 24 months respectively. In England, a dog must win 3 CCs under three different judges to become a Champion. However, a dog could win 6 CCs as a puppy, but could not become a champion until he had won one after he was a year old. Most dogs are made up (become champions) when they are about three years old.

At the end of the Open class, all undefeated dogs met for the Challenge Certificate which was won by Peter Clifton's lovely Joseter Domino. He is by Ch. Joseter Jason out of Gwenlais Ffreda Ffaeth. Domino came from the Limit class which is for dogs which have won CC's but are not yet champions. This win gave Domino his second ticket (another term for CC). Ch. Beckrow Blue Cedar won the Reserve CC. Sandra Tonkyn's famous "Woody" is by Kerridas Ianto out of Beckrow Blue Sapphire. Blue Cedar came from the Veterans Dog class.

The bitches went through the same classes, Veteran through Open, and the blue Gorthleck Blueberry of Bymil won the CC. She belongs to Sarah Taylor and is by Lees Black Heckle of Gorthleck out of Ch. Bymil Bluebell of Gorthleck. I think this was her second CC, also. The Smarts' red bitch, Ch. Rikarlo Brenhinnes won the Reserve CC. She is by Gwenlais Ffranc Fferws out of Ch. Joseter Benita. Veterans bitch was Ms. Taylor's stunning tri, Ch. Bymil Silver Lining.

The CC dog and bitch then met for Best of Breed which went to Domino. At an all-breed show he would have gone on to the Group just as our Best of Breed winners do.

The week before the CWCA show was the Darlington Championship Show, an enormous all-breed classic. Cardigans were judged by Mrs. Brenda Banbury who gave the beautiful Ch. Beckrow Blue Cedar his 30th CC with the reserve ticket going to Joseter Domino. In the Working Group, Blue Cedar made the final ten. There are 45 breeds in the English Working Group, and only two awards are given, Best in Group and Reserve. Mrs. Banbury will be in the States next year and will judge Cardigans at a CWCCA supported entry at Rubber City in June.

In addition, Darlington was the site for a huge all-breed puppy sweepstakes sponsored by Spillers, a pet food company. Only once before had a Cardigan won this Sweepstakes, in 1974, when Ch. Pharoah of Joseter won as a puppy. This year, his great-great grandson, Joseter Jazz, won again. He did all Cardigans proud with that win!*

Corrections:

With apologies to Nancy Babyak, the following paragraphs were inadvertently omitted from her Delaware Valley Cardigan Club report on page 47 of the Summer 1992 News-Bulletin:

"The excitement did not end here. After a plentiful luncheon provided by Irene Farrance and her committee, many friends and fans settled ringside to cheer on our Specialty Winner in the Group Competition. "Luc" showed what he was made of to thunderous applause, and came out Number One in the Herding Group. Col. Gish - who also judged the Group - later joined a weary yet very excited Cardigan fan club, and exclaimed that his Group Winner never let up, and was clearly "Group One."

"Finally as the skies opened up and the rains came at days end, it was agreed that a good day and fun time was had by all!!

"Hope to see you next year."

Also from the same article, Pat Santi has asked me to clear up one sentence. Where it was stated that "Col. Gish made his cut, and proudly awarded Best of Breed to Ch. Kentwood Luc, for the fourth year in a row." (a statement made by your editor), Pat would like to note that Luc has won the Del Val Specialty four times in row - he was not awarded by Col. Gish four times.

Sorry if there was a misunderstanding.

(Test and Trial Classes)
Lunch

Lynn Dee's Kennel

LynnDee's D Cross Jessica

Jessie is our newest girl out, starting this spring with 9 pts., 1 major already. She had to take the summer off to let her little girl owners show their horses in 4-H, but she'll be back out in September showing in the Washington area.

We also look forward to our youngest girl, LynnDee's Country Cassidy, making her debut this Fall.

We are expecting a litter early this winter -- hopefully offering reds, tri-color, black & whites or brindles.

Available: Ch. LynnDee's Timothy Reid for Stud Service.

In Memoriam

"Obediah"

5/2/87 - 7/31/92

Obe was not a Cardigan Welsh Corgi, but a Golden Retriever that acted as our guardian angel. His best and lifelong friend was Katie, our Cardigan, who is now retired.

Obe raised and played with our puppies ever so lovingly and gentle, keeping them safe. His cause of death is unknown and will cause an emptiness at our home.

Our family will miss you Obediah. Katie is still looking for you to sass at. Thank you for everything you gave to us. We now give you peace overlooking your home.

Is the Standard Wrong?

By Patrick Ormos

Despite an excellent oral presentation by Jon Kimes at the last National Specialty, people are still arguing about the correct Cardigan front. What is it about Cardigan fronts that is so confusing? Some judges have the audacity to tell exhibitors that they “prefer a straight front!” Some exhibitors have the gall to tell judges that the front is supposed to be east and west (fiddle). Other people argue about whether the front feet *must* turn out or *may* turn out. Still others look for big, barrel-chested bull dog fronts on Cardigans. Who is right? Well, let me share with you one person’s point of view — mine...

View from above:

“The feet are relatively large and rounded, with well filled pads. They point slightly outward from a straight ahead position to balance the width of the shoulders. This outward point is not to be more than 30 degrees from center line when viewed from above. The correct Cardigan front is neither straight nor so crooked as to appear unsound.”

— AKC Standard

The AKC standard amply illustrates the theory behind the Cardigan front — static balance. In order to achieve static balance in a dog which is front-heavy (like most of the achondroplastic or dwarf dogs), the front feet will automatically turn out slightly. Otherwise the dogs will feel as if they are *not* balanced. The Cardigan is *not* a terrier, and should not stand straight-legged like a terrier.

Basset Hounds also need this kind of static balance. But the Basset standard is very clear that unsoundness will not be tolerated in the search for static balance. Unsoundness is part of the risk we take when breeding achondroplastic, heavy dogs. We must be vigilant to guard against it. In Cardigans, unsoundness may take the form of knuckled-over pasterns. Feet which turn out more than 30 degrees or pasterns which turn out are equally unsound. Movement is the ultimate test of soundness. When a Cardigan comes at you, the front feet should reach and *straighten*, so that the paw lands straight, *not* turned out. Any deviation from this is unsound.

View from the front:

“...forearms lightly bowed to mould round the chest. Feet turned only slightly outward.” — CKC Standard

“The moderately broad chest tapers to a deep brisket, well let down between the forelegs. Shoulders — slope downward and outward from

the withers sufficiently to accommodate desired rib-spring. Shoulder blade (scapula) long and well laid back, meeting upper arm (humerus) at close to a right angle. Humerus nearly as long as scapula. Elbows should fit close, being neither loose nor tied. The forearms (ulna & radius) should be curved to fit spring of ribs. The curve in the forearm makes the wrists (carpal joints) somewhat closer together than the elbows... Knuckling over, straight front, fiddle front are serious faults."

— AKC Standard

The CKC standard (taken from the British) gives a pretty good description of what the front should look like when viewed from straight ahead. If you combine this with the description of the front when viewed from above, and the description of chest and the curve in the forearm as per the AKC standard, then one can get a pretty good idea of the correct Cardigan front.

The chest will come right down to the knuckles, and the forearm (radius and ulna) will curve around this deep, capacious chest, showing no daylight between ribs and legs (in the mature dog).

The shape of the ribs is of primary importance here. A round rib cage will force the shoulder assembly out and away from the body, or forward

What is it about Cardigan fronts that is so confusing?

up on the neck. This is especially true if it is a large rib cage, giving a barrel-chested effect. This will result in some pretty straight shoulders, some that are out at the elbows, or push the legs far enough away from each other so that the front appears straight. A slab-sided rib cage will flatten out the shoulder assembly, when viewed from the front, and will pull the elbows in so that the dog looks "pinched" from the front. This will also encourage an East/West appearance. An oval rib cage will allow the shoulder assembly to lie correctly on the ribs, and to move properly during its forward extension and rearward follow-through. It is the only shape of rib which will allow the correct leg curve around the rib cage and a good shoulder assembly. A big, wide, barrel-chested front is just as incorrect as a slab-sided narrow one. Neither will allow the dog to move correctly and efficiently. Both require extra work for the dog to maintain balance.

When the correctly-shaped radius/ulna meet the knuckles, the legs straighten out (thus giving the crook appearance — see Curtis Brown's book on movement for a good explanation). The pasterns will be straight, or almost straight; thus the feet will have only a slight turn out. The crook occurs between the elbow and the knuckle. Note that a straight radius/

Classic Cardigan Corgis

1992 - celebrating more than 25 years in dogs!

THANK YOU:

- ✿ to the many German Shepherd people who originally taught, nurtured, and finally trusted an arrogant and ignorant teenager with dogs good enough to breed, show and win!
- ✿ to the clients who shared their beloved pets with me to show and campaign.
- ✿ to Paul and Doris Slaboda (Twinroc Cardigans) who had enough faith in an unknown Canadian to get him started in Cardigans.
- ✿ to Helen Jones and Bob Caldwell who put me in contact with my eventual partner.
- ✿ to Cathy Ochs-Cline (Vestavia Cardigans) who originally trusted me with Molly and then joined me in a new venture in Cardigans - Phi-Vestavia Cardigans. Thank you for your fund of knowledge about this wonderful breed, thank you for your support and encouragement when others thought my ideas were nuts, thank you for your courage in sticking with me when so many tried to break us up. Thank you for all the Champions and Group placers we have bred together in less than 10 years.
- ✿ to all the owners of our dogs over the years who have finished and campaigned so many of them in breed, obedience, herding, tracking, agility, and just plain companions.
- ✿ finally, thank you to the dogs - without whom none of our successes would have been possible.

WOODSHIRE

Phi-Vestavia Victorian Lace "Emily"

Our beautiful redhead is pictured above winning her third major under respected breeder-judge Steve Gladstone. Emily now has 11 pts. and will be bred to Ch. Davenitch Peer of Pluperfect this fall with puppies expected around Christmas.

Our thanks to Cathy Ochs-Cline for handling Emily to her majors and for all her advice and guidance. Thanks also to Patrick Ormos for letting us have this lovely lady. And lastly, thanks to Keith and Linda Kuberek for their encouragement and counsel.

LUCA WINS BROOD BITCH

Here is Luca and her lovely children shown winning the Brood Bitch class at the 1992 National. They are Diane Proeber with Ch. Davenitch Victorian Turret, Kym Hill with Ch. Ceara's Breanne of Davenitch, and Denise Zortman with Ch. Davenitch Glenmar Diamond Lil.

The sire is that red boy, Davenitch Sand Piper. Need we say more?

Hi "Oliver!"

The Great American Adventure

by Sheena Stalker

When it was first suggested that members of the CWCA might consider supporting our American friends by attending their 50th Anniversary Specialty Show in Kent, Ohio, I responded positively with the idea that it would be an excellent way to learn more about Cardis in general. Little did I realize the breadth of new experiences I would encounter! I now have basic qualifications as travel agent, courier, lost property controller, banker and diplomat (only just scraped through on the last one)!! But the important point is that those who did make the trip not only had a very enjoyable and interesting time, we did have a great opportunity to see more Cardis at one show than we ever could here, to pick out a number of dogs we would love to have smuggled back with us, to learn more of the American way of judging and to enjoy the friendship of "Cardi people" from Australia and New Zealand as well as from all over America. Ken Linacre judged Veterans at the Specialty Show and Peter Clifton judged Cardis at the Supported all-breed show which followed on the Sunday, so I will leave comment on the dogs to the experts. I will just give a brief diary of events.

The Clifton group having travelled separately, the remaining five CWCA committee members — Ken, Maureen Thomas, Wendy Hall, myself and Cush MacNally were greeted by a lovely welcoming party on arrival at Cleveland airport late on Tuesday evening.

On Wednesday the "foreigners" were entertained to lunch at the home of the Specialty organizer Helen Jones and husband Bob Caldwell, who is now President of the Cardigan Welsh Corgi Club of America. We not only met human friends here, but also caught up with a very fit, handsome and happy Joson, who was very pleased to introduce us to the first of his American youngsters. In the evening we attended the Annual Meeting and were most interested to hear very similar arguments there as here, followed by a fancy dress parade of Cardis showing they have a real sense of humor!

Thursday, Friday and Saturday were the days of the Show. On Thursday evening we had a seminar on the breed with talks given by Ken, Peter, and Jonathan Kimes (who also judged at the show), the seminar being chaired by Paul Slaboda who judged the Cardi Sweepstakes classes at the Sunday show.

Friday evening was the social highlight comprising the Banquet, the Silent Auction and the Raffle. The usual Kincroft luck held and I came away with winnings in both! On Saturday evening I was privileged to be invited to the "Judge's Dinner" at the club house of Rubber City Dog Show

SWEEPSTAKES CRITIQUE

BY JONATHAN J. KIMES

I would first like to thank everyone for the great honor of judging your lovely puppies. I have always held the CWCCA National as 'the show' and the request to officiate at the 50th Jubilee Specialty was extremely complimentary. Many thanks to Helen Jones and Bob Caldwell as well as everyone who worked so hard on the event - it was definitely an event! and it went off wonderfully well. Also special thanks to Janet Robinson and Cindy Bossi who were tremendously efficient Ring Stewards and a total pleasure to work with!

I would also like to mention the overall quality was far and away the best it has ever been. One has only to look in the catalog to see most of the exhibits go back to about five or six stud dogs - well chosen I would say, as certainly breed type was in abundance. I would only like to see breeders continue the good work.

Puppy Dogs 6-9 months (19)

1st - Phi-Vestavia Full Moon Fever (Ch. Phi-Vestavia Nautilus - Ch. Phi-Vestavia Pristine) Breeders: Williams. Owners: Ochs-Cline, Ormos, Klepper. Brindle & White. Very pretty outline standing and moving, nice head, good quality bone, moved well going and side, a little wide on the come, needs a little more angulation front and rear.

2nd - Sisterwood's Ambler (Ch. Sisterwood's Magic Moment - Ch. Sisterwood's Happy Angel Wings) Breeders/Owners: Mann & Gelvin. Brindle & White. Slightly bigger puppy, very pretty outline, more refined in head than #1 and not as strong in the rear right now. Should mature into a good one.

3rd - Sisterwood's Dots & Dashes (Ch. Sisterwood's Challenge O Heart - Kollage's Sassy O Sisterwood) Breeders/Owners: Mann & Gelvin. Brindle & White. Striking puppy with good reach of neck, lovely front, good bone and substance, a little over-built in the rear causing him to move open hocked and can spoil his outline with his tail - but a nice type dog puppy.

4th Summerwind's Bon Chance (Leamore Bolero - Prides creek Annie Oakley) Breeder/Owner: Johnson. Brindle & White. Nice size, good length, nice topline, a little strong in the muzzle, padded in the front and a little close in the rear.

Puppy Dogs 9-12 months (15)

1st NAB's Aelwyd Over Trump (Ch. Finnshavn's Alexander Selkirk - Su-ets Aelwyd Seren Lwcus) Breeders: Wood & Harbert. Owners: Buckland. Tricolor. Lovely outline, excellent length and good topline, lovely reach of neck, attractive headpiece, moved nicely coming and going with good drive. Would like more bone and a rounder foot. Not in his best coat unfortunately.

2nd Cardach's Robin Hood of Sunup (Ch. Cardach B N B's Ceneu Flash - Ch. Rhydowen Ginger Poppin HT) Breeder: Bishop. Owners: Bennett. Tricolor. Beautifully put down, good length, very nice bone, not as good in head as #1 nor as positive in front. I thought him quite attractive.

3rd Kollage's Secret Agent Man (Ch. Pinehurst Big Boy - Ch. Kollage

Calloo Callay) Breeders: Harper & Brown. Owners: Miller, Harper & Brown. Brindle & White. Lovely type dog, very striking, deep brisket, could use a little more ribspring yet, head rather too narrow and long right now, came a bit too wide.

4th Kollage's Pinball Wizzard (Ch. Pinehurst Big Boy - Ch. Kollage Calloo Callay) Breeders: Harper & Brown. Owners: Harrison, Harper & Brown. Red Brindle & White. Another very striking dog, gorgeous topline, very attractive in type, length not quite as good as those above, rather short upper arm and consequently restricted in front movement.

Dogs 12-15 months (6)

1st Davenitch Victorian Turret (Davenitch Sand Piper - Ch. Davenitch Shiloh Luca) Breeder: Whan. Owner: Proeber. Brindle & White. Very attractive smallish dog, lovely round bone, overall good head & expression, very typey outline with nice length, good depth of brisket, substance, good topline, moved well enough coming & going, slightly restricted in side-gait.

2nd Davenitch Luca's Limelight (Davenitch Sand Piper - Ch. Davenitch Shiloh Luca) Breeder/Owner: Whan. Red Brindle & White. Extremely close to #1, very similar in size, outline and proportion and a stronger mover, finer in bone and head, a bit closer in front. Out of coat today. Both dogs were very showy and a pleasure to watch.

3rd Kennebec Kai from Ulamauna (Ch. Kennebec's Buckwheat PhD - Ch. Thistledown's Joy to Ulamauna) Breeders: Brooks. Owners: Johnson. Brindle & White. A nice type dog, nice head, moved well enough coming and going, extremely overweight.

4th Ch. Aberdare Rhydowen My Fashen (Ch. Kentwood Luc - Ch. Rhydowen Remy Julianne) Breeder: Rumsey. Owners: Sanders, Anderson, Siragusa & Santi. Brindle & White. Excellent substance and length, poor front movement held him back.

Dogs 15-18 months (10)

1st Sisterwood's Lord Digby (Ch. Zircon's Jack of Hearts - Chandler's Her Roy'l Happiness) Breeders: Mann, Gelvin & Chandler. Owners: Mann & Gelvin. Dark Brindle & White. Very attractively marked, nice outline, good topline, seemed to excel in this class, nice head to body proportion, only a moderate mover, could use a little more length of body and bone.

2nd Ch. Karina Airdrie Do No Wrong (Ch. Davenitch Clean Sweep - Ch. Airdrie Fantasia) Breeders: Jackson & Hoyer. Owner: Hoyer. Red Brindle & White. Nice length, overall nice type of dog, a little too long and narrow in head.

3rd Davenitch Just Maybe (Davenitch And He's A Surprise - Ch. Davenitch Pardon Me Boys) Breeder/Owner: Whan. Brindle & White. Attractive dog of good length and good reach of neck, rather extreme in front which held him back, a little restricted in side gait, a bit too rounded in back-skull, not the overall balance of above.

4th Ch. Phi-Vestavia Andrew's Pride (Ch. Phi-Vestavia Nautilus - Ch. Pluperfect Powder & Paint) Breeder: Hutchinson. Owners: Williams. Red

Brindle & White. A richly colored dog, very pretty type, rather strong in head for me, a bit too turned in front and revealed a rather gay tail.

Dogs 18 months & Over (2)

1st Ch. WinBuck's Bach Anrheg Cymreig (Ch. Chandler's Critic's Choise - Ch. Zircon's Ebony 'N Ivory CDX) Breeders: Harrison & Dickson. Owner: Rhoten. Dark Brindle & White. Good substance and size, nice soft expression and lovely round ear tips, nice coming & going, nice front piece.

2nd Ch. Phi-Vestavia Spyglass (Ch. Salvenik Sea Treasure - Gwenlais Glynis Glyfar) Breeders: Ochs-Cline & Ormos. Owners: Mills. Dark Brindle & White. Good substance and size, a little longer than #1, good front piece and also moved well coming & going but rather strong headpiece with too much stop.

Puppy Bitches 6-9 months (17)

A very strong class with 6 or 7 very pretty bitch puppies.

1st Davenitch Sunny Strider (Ch. Davenitch Peer of Pluperfect - Ch. Megwyn's Cross Country Girl) Breeder/Owner: Whan. Red with Sable & White. Simply excelled in type, she was deep, she was long, well laid back in shoulder, well let down hock, beautiful reach of neck, good topline, lovely length and heavy bone, beautiful front, head a bit too refined - she wasn't very well trained but she couldn't be stopped!

2nd Rhydowen I'm No Angel Kaleigh (Ch. Rhydowen Chippendale - Rivendell's Tylwyth Teg) Breeders: Santi & Sandefer. Owners: Leseberg & Santi. Dark Brindle & White. High quality bitch, good reach of neck, pretty good topline, nice head to body proportion, needing a little more depth of brisket and more rear angulation. Came a little out in the elbow - but overall a good one.

3rd Harbor Grace's Clare Bear (Ch. Garvins Gavin Harbor Grace - Garvins Elora Harbor Grace) Breeders: Thorson & Garvin. Owners: Thorson. Brindle & White. Very pretty bitch just 6 months on the day. Beautiful type, lovely length, attractive head, very good sidegait - over weight and not too cooperative with her handler but has a good future if she keeps on.

4th Sisterwood's Amo Te (Ch. Sisterwood's Magic Moment - Ch. Sisterwood's Happy Angel Wings) Breeders/Owners: Mann & Gelvin. Red Brindle & White. Again, very nice type, nice topline, well let down hock, not quite as well balanced as those above.

Puppy Bitches 9-12 months (15)

1st Phi-Vestavia Victorian Lace (Ch. Salvenik Sea Treasure - Ch. Phi's Amazing Grace) Breeders: Ochs-Cline & Ormos. Owners: Graef. Red & White. Lovely type, pretty head profile, nicely angulated in rear and possessed strong rear movement, a little short in upper arm, ear a tad small and could use a little more bone.

2nd Kollage's Unchained Melody (Ch. Pinehurst Big Boy - Ch. Kollage Calloo Callay) Breeders/Owners: Harper & Brown. Red with Sable & White. More elegant in outline than #1, lovely neck and profile, a bit narrow in head

and body just now, not quite the rear angulation or strength of above, came very nicely, a bit close on the go and had a tendency to arch topline on sidegait. A really difficult decision between these two as they are both lovely bitches.

3rd Coedwig Davenitch Iris (Ch. Springshire's Jumping Jack - Ch. Coedwig Davenitch Lacey Blue) Breeder: Shira. Owners: Whan & Shira. Tricolor. Lovely outline, long, low, pretty good headpiece, lovely topline, went well, wide on the come.

4th Springshire's Angel Wings (Ch. Locksleyhall Laird - Ch. Jason's Bijou CD) Breeders/Owners: Warczak. Blue Merle & White. Beautiful clear blue bitch of lovely quality. Nice bone and substance, good general soundness, would like a longer upper arm and more shoulder layback, cleaner overall lines would improve her.

Bitches 12-15 months (13)

Absolutely the toughest class I had. I had about 8 really good bitches in here and wish I could have selected more for awards.

1st Davenitch Luca's Bronte (Davenitch Sand Piper - Ch. Davenitch Shiloh Luca) Breeder: Whan. Owners: Rogers & Whan. Brindle & White. Extremely neat and well balanced bitch, lovely head and well proportioned to body, beautiful neck, nice length and topline, lovely depth of brisket, lovely round bone, beautiful outline, well let down hock - tremendous detailing all round which gave her the show. She moved well enough all ways in the ring.

2nd Ceara's Breanne of Davenitch (Davenitch Sand Piper - Ch. Davenitch Shiloh Luca) Breeder: Whan. Owner: Hill. Red Brindle & White. Another gorgeous bitch, slightly narrower in head but with a beautiful eye, very good length and size, good shoulder layback, preferred front on #1, carrying a little too much weight which detracted from her movement and reach of neck.

3rd Phi-Vestavia Truth or Dare (Ch. Phi-Vestavia Nautilus - Ch. Phi-Vestavia Picture Perfect) Breeders: Ochs-Cline, Ormos & Klepper. Owners: Klepper, Ochs-Cline & Phillips. Brindle Ptd Tricolor. Striking bitch, good length and size, lovely bone and substance, attractive type although a little stronger in head than above and not so well finished off in profile. Stood a little close in front but another very good bitch.

4th Ch. Davenitch Glenmar Diamond Lil (Davenitch Sand Piper - Ch. Davenitch Shiloh Luca) Breeder: Whan. Owners: Schmitz & Zortman. Brindle & White. Very good type again, good length and size, very good sidegait and rear, wide on the come, a little short in upper arm, a bit strong in head. A very attractive group of bitches!

Bitches 15-18 months (18)

A very difficult class! I found all very even in quality with no apparent stand outs.

1st Davenitch Coedwig Blue Violet (Ch. Megwyn's Night Hawk - Ch. Coedwig Davenitch Lacey Blue) Breeders: Shira & Whan. Owner: Whan. Blue Merle & White. Rather plainly colored bitch who took me a while to appreciate. Pretty head and beautiful front, well turned rear leg, good

substance and very shapely, nice reach of neck, overall good soundness, leans over her upper arm and not particularly beautiful in outline but a good workman type bitch.

2nd Trailwyn Bealehouse Electra (Ch. Shiloh's Ever Ready Eddie - Ch. Trailwyn Bealehouse Gwynlyn) Breeders: Floyd & Clifford. Owner: Clifford. Brindle Ptd Tricolor. Very elegant type with attractive headpiece, deep brisket, good length, moved nicely, a little too low to ground - I thought she would be my winner but she refused to try and ended up spoiling her outline.

3rd Ch. Sisterwood's Happy Sweetheart (Ch. Zircon's Jack of Hearts - Chandler's Her Roy'l Happiness) Breeders: Mann, Gelvin & Chandler. Owners: Mann & Gelvin. Dark Brindle & White. Overall much my type, good outline, good topline, moved well coming & going but simply refused to let me handle her on the table.

4th NAB's Ms Kitty of Davenitch (Davenitch And He's A Surprise - Ch. Davenitch Pardon Me Boys) Breeder: Whan. Owners: Buckland. Very good length, moved pretty well, not quite so nicely headed nor good in shoulder as above, front a little sloppy.

Bitches 18 months & Over (8)

1st Rhydowen Pitching Penny's (Ch. Rhydowen Philadelphia Flash - Ch. Riverview Lucky Penny) Breeders: Lawrence. Owners: Siragusa & Santi. Black & White. Wow! I felt this bitch was absolutely outstanding. Gorgeous profile, long, low, level with beautiful bone, extremely good headpiece, beautiful reach of neck, easily the best mover all ways I had today with superb extension. Her front is a bit asymmetrical. Her cross is a couple of crooked teeth which held her back from the grand prize but she is overall one of the best I've ever seen.

2nd Kismet Aragorn Desert Rose (Ch. Aragorn's The Lone Ranger CDX - Ch. Haywire Kismet Rebellion) Breeder: Burnett. Owners: Gladstone & Burnett. Brindle & White. Nicely bodied bitch of good type, good headpiece, moved pretty well all ways in the ring, would like more shoulder layback and more reach of neck.

3rd Ch. Phi-Vestavia Synchronicity (Ch. Salvenik Sea Treasure - Gwenlais Glynis Glyfar) Breeders/Owners: Ochs-Cline & Ormos. Good length, good topline, nice reach of neck, would like more shoulder layback and her head was too strong for my taste.

4th Ch. Sunnybank's Lucky Penny (Ch. Phi-Vestavia's Jeremy - Sunnybank's Vestavia Eclair) Breeders: Close & Nash. Owner: Close. Red with masking & White. Pretty bitch, nice type all round, good bone, substance and headpiece, strong rear drive, rather dicey front on the come and cleaner lines would make her that much better.

After choosing Davenitch Victorian Turret as my best all round dog, I brought him center ring along with his lovely sister, Davenitch Luca's Bronte and Rhydowen Pitching Penny's. I hope everyone had the chance to study these three superb exhibits - Bronte's all round excellence just edged out Pitching Penny's for the top award with her well matched brother receiving BOS.

Judging the Veteran Sweepstakes

by Ken Linacre

The entries at the CWCCA Specialty were huge. The first day of the show, Thursday, was given over to sweepstakes, with 132 for Jon Kimes in puppy sweepstakes and 33 in veteran sweepstakes for me. I understand this was the first time a veteran sweepstakes had been run and Helen Jones and her committee were delighted with the entry. I was too!

There is always something special about the veterans. So many in our breed last so well. Many were clearly pleased to be back in the show ring again, others would have preferred to be left at home! All looked grand, even the one who came minus the top half of one ear, lost in a disagreement with a Rottweiler! They were divided into four classes, dogs and bitches, with Veterans age 7-9 and Super Veterans age 9 and over in each.

The Best in Veteran Sweepstakes was an old friend, although I did not recognize Am. Ch. Joseter Geefax, now owned by Cathy Ochs-Cline, Patrick Ormos and Jane Walser. He is still a very well made and stylish dog, moving very freely. Best of Opposite was Margaret Sullivan's Ch. Talbot's Snow Queen — a product of the first multi-puppy frozen semen litter in the US. She's a red brindle, very free moving and smart, looking as if she could still do a day's work. The other class winners were Ch. Coedwig's Buckeye in dogs, a red brindle owned by Kim Shira and Margaret Sullivan, and Trailwyn Trawiad Ilygad, a red bitch owned by Jean Clifford.

There are never enough prizes in Veterans, where the applause is always loud, sincere and all for all the dogs. An experience I shall long remember — thanks CWCCA.

CWCCA National Specialty Junior Showmanship Results

June 4, 1992

Judge: Sherry Caldwell

Novice Junior

- 1 Katherine Wellman with Kennebec Red Oak Romance

Best Junior Handler:

Molly Moran

— Adventure continued from page 33 —

and learned more about the American judging scene from some of the American judges present.

I must admit I saw some dogs I had difficulty in identifying at first glance at the all-breed show on Sunday — the Americans have very different ideas on breed standards especially in Briards, Golden Retrievers and Schipperkes — but the German Shepherd winning Best in Show was a magnificent animal, and we were very noisily happy when the BOB Cardi did so well in the Group (no, we didn't intimidate the Group judge — it just sounded like Crufts as we all acted as cheer leaders).

We were entertained to supper at Helen and Bob's on Sunday evening. I was sure someone was going to slip one of those delightful puppies out with them on the way home.

Monday saw another "first-time" for some of us when we went to the herding tests, followed by a last get-together meal for the merry travellers before we all disappeared to our various countries of origin.

Over the week I was kept very busy accepting membership fees and orders for handbooks, which may have interrupted my viewing of the judging, but at least was beneficial to our Bank Balance (even allowing for a little hassle when I, in my ignorance of the exorbitant charges the UK banks make for foreign conversions, accepted some of the cash in dollar cheques!). I think the CWCA will be about £300 better off — perhaps it would be worthwhile sending me over there next year?! *

1992 Cardigan Welsh Corgi National Specialty REGULAR CLASS CRITIQUE

BY ANDREA TERNUS

The greatest honor a judge can receive is to be invited by his or her peers to judge the National Specialty of their breed. I was absolutely thrilled when I was first notified and looked forward to the show for the two plus years between the invitation and the actual occurrence. The show not only met my expectations, but exceeded them! Every detail of the show went off smoothly, the venue was excellent, and the quality of the dogs was superb. People really seemed to be enjoying themselves and I know I certainly did — every moment! The 50th anniversary show will be one to be long remembered and talked about with delight I am sure.

The dogs overall have improved vastly since I started in the breed. The correct type is being seen in most of the dogs. In years past dogs with many different "types" appeared, not all of which appeared to be of the same breed! Gone are the leggy dogs, the horrible toplines and most of the coarse, boxy, deep, short heads which were once common. Outlines are tremendously improved with the long, low dog being the rule instead of the exception. Heads are also much better. Toplines, while not perfect, do not show us the very high in rear or roached back dogs so often seen. Coats, too, although some sparse due to the heat, were nevertheless quite correct with only a few exceptions. (Remember that a soft coat is a WORKING fault and not a cosmetic fault! A soft coat gets wet and muddy easily, loading the poor dog with pounds of moisture to carry around. A correct coat repels moisture as people whose dogs have the correct coat will note when trying to bathe them!) Gone also are the very fine boned dogs. Cardigans need adequate bone to support their relatively heavy weight! Rears looked quite good on the whole also. Temperaments were good with a couple of notable exceptions and a few on the shyer side.

On the negative side are several items. The most worrisome by far is the front end situation! Most dogs shown did NOT possess the correct front and I am sorely afraid we are in the process of losing it! Since this is a BREED-TYPE FAULT and not merely a soundness fault (although it is both!), this is a huge problem in the breed! If you are not sure about front ends, please get advice from someone who REALLY understands front ends and rectify it immediately in your breeding program. Perhaps the number of people who actually do understand the correct front is very small! Some have said that judges don't understand and are rewarding incorrect fronts. This is true. People have gone on to say that they will intentionally breed BAD fronts in order to win! This is tantamount to ruining your breed and prostituting it in order to get show ring ribbons! A letter has been sent to judges regarding front ends. Your current CWCCA Board is dedicated to the education of judges as to correct Cardigan breed type all the way around. Please continue to breed and show correct dogs — it is the only hope for this breed! "The

forearms should be curved to fit spring of ribs". This means a DEFINITE curve and no daylight between a well let down chest and the forearms. "The curve in the forearm makes the wrists somewhat closer together than the elbows . . . The feet point slightly outward from a straight-ahead position to balance the width of the shoulders . . . not more than 30 degrees from the center." These qualities are NOT optional. If the wrists are NOT closer together than the elbows and if the feet do NOT point out from a straight-ahead position, the front is WRONG. Period. Very few totally correct fronts were seen. Purchase the video from this Specialty and watch the beautiful fronts on the BOB and BOS — this is what is desired.

Another problem cropping up was the very surprising number of Cardis with very small ears!! Some looked like Pem ears! This also is a big problem and one new to me. This must be jumped on right away. The Cardigan ear is LARGE — "Ears large and prominent in proportion to size of dog." An incorrect ear is also a BREED-TYPE FAULT. We are also starting to see some large, round, bulgy eyes, some of which were also very light in color. Definitely not attractive. "Eyes medium to large, not bulging . . . dark in harmony with coat color." Several kinked tails appeared in this entry, also something new to me.

Class dogs at this Specialty were a bit of a letdown. There was quality present, of course, but not in the depth I would have liked. I was pleased with the 6-9 month dog and bitch classes, but the open dog class with only 5 present was disappointing numberwise. Class bitches were better, which is not a surprise. Although we need many quality bitches, we also need several good studs in the breed. Fortunately the Specials class was something to behold — 48 dogs, 29 bitches, as well as Veteran's Dog and Bitch and Winner's Dog and Bitch. This was a spectacular sight for all, a feeling which was echoed to me by a number of our overseas visitors. Here again bitches had the edge, but there were a number of lovely dogs of both sexes.

Winner's Dog, Davenitch Victorian Turret, owned and shown by Diane Proeber, and Winner's Bitch, Ceara's Breanne of Davenitch, owned and shown by Kym Hill, were litter brother and sister from the 12-18 month class and were children of the BOB bitch, bred by Connie Whan and sired by Davenitch Sand Piper! No surprise then that their mother won the Brood Bitch class as well as BOB! Both of these youngsters are extremely promising and should do well. Winner's Bitch was also Best of Winners, due to slightly better length of back and maturity on the day. Reserve Winner's Dog, Davenitch Luca's Limelight, was a litter brother to Winner's Dog (and Bitch!), owned and shown by Connie Whan was likewise a lovely and extremely promising puppy. Reserve Winner's Bitch, Chimera Trudy Trudette, bred by Pam Allen, owned by Terri Allison, by Ch. Joseter Geefax out of Ch. Chimera Raven, was a lovely brindle, who pushed the winner hard. Both Winners were showing extremely well which put the finishing touch on an already lovely picture.

The winner of the Veteran Dog class, Ch. Pinehurst's Big Boy, bred, owned, and shown by Bill Enders, (by Ch. Rollingwoods Mister Hobart CD out of Ch. Bobwyn Foxy Lady of Brymore), the winner of the National

Specialty in 1987 under Sonica Godden, was having a great day at age 12+!! He won 2nd place in the Stud Dog class as well. Veteran's Bitch, Ch. Westwyn Athena, bred and co-owned by Bonnie Scherer, owned and handled by Leah James (by Ch. Westwyn Tyger Tyger out of Ch. Windward Yard a Dwtsen) triumphed in another very competitive class and was looking excellent in every respect at age 10.

By BOB Cardigan, Ch. Davenitch Shiloh Luca, bred by Susan and Joseph Weigel and owned and shown by Connie Whan, is to my mind the finest Cardigan Welsh Corgi we have whelped in the United States. Her quality is so outstanding that it brings tears to one's eyes. Her spectacular record as a producer shows us that it can all be done in one package — Best of Breed at National Specialties, Best in Show at a large All Breed Show and a fantastic producer as well. I felt honored to be able to pass judgment on this wonderful girl.

Not far behind her and actually pushing her up to the very last moment was my BOS, Ch. Zircon's Bobby Sox, bred and owned by Rochelle and Eddie Stuve and handled by Eddie (by Ch. Kennebec Ice Anchor out of Ch. Zircon's Yolanda of Megwyn CD). I have long admired this dog and was pleased to see him looking so well in such incredible competition. I had "Miss Luca" and "Bobby" picked fairly early on as my best bitch and my best dog of the day, but I had not decided which of the two was the better! "Bobby", as well as "Miss Luca", excels in breed type. Both animals could be used as ideal role models in my mind — long, low, good toplines, lovely headpieces, sound effortless movement, correct coats and tail carriage. It must be noted the these two are half-brother and sister, both having been sired by Ch. Kennebec Ice Anchor, a dog who has really turned the breed around in the United States. "Link" could not be shown at this Specialty as his co-owner had judged the Sweepstakes, but can you imagine sauntering into the Stud Dog Class with BOB and BOS as your offspring??

My most difficult decisions were concerning the Merit Awards. I had too many nice dogs and too few awards! (Actually, 5 Awards is on the skimpy side in a ring with over 80 dogs in competition directly against each other! Perhaps 10% would have been more reasonable?) In my first cut of Specials, I took dogs I felt had quality that the spectators should recognize. Many would not be in final contention, but still there was quality to be noticed. Dogs short of back and neck did not make it into the first cut as this outline is so incorrect and is something we should all be trying to breed away from. In the next cut, dogs with markedly incorrect fronts did not make it. When we got to our final cuts in dogs and in bitches, we had some truly beautiful animals. The Awards of Merit went to Ch. Phi-Vestavia Nautilus, Phi-Vestavia Truth or Dare, Ch. Kollage Calloo Callay, Ch. Sisterwood's Happy Angel Wings and Ch. Sunnybank's Lucky Penny.

— I had not judged Nautilus before and found him to be a very exciting flashy male with excellent type and side movement, who just demanded to be noticed. No wonder he has done the winning that he has.

— Truth or Dare, a Nautilus daughter, (a move-up from the classes) was a truly lovely, very correct brindle tri bitch, who had a spectacular weekend. I

believe she was Best in Sweeps on Sunday and under English judge Peter Clifton, was Best of Breed in a very large entry and also Group III under John Connolly (amidst our raucous applause!) in a ring chock full of Best in Show winners!

— Calloo Callay is a bitch I had admired and put BOB in a supported entry previously. She is a gorgeous dark brindle, utterly sound and correct. She also won 2nd in the Brood Bitch class.

— Happy Angel Wings was a darling and beautiful light brindle I just wanted to hug and take home with me! She as the others, was very typey and very correct, also very sweet in expression.

— Lucky Penny was a red bitch, perhaps not flashy in demeanor, but very correct and sound. The more I judged her, the more I could not find anything to fault her on. This type of dog is often overlooked and wrongly so. Showmanship and flash are lovely and never hurt a dog in the ring, but one must keep an open mind also for the less showy or perhaps plainer marked dogs, who are typey and correct, but perhaps do not leap out and demand your notice. These dogs need “finding” and often contribute as much or even more to the breed than the flashier dogs, who sometimes show so well that non-breeder judges overlook some serious faults in favor of showmanship.

I think it is worth noting that, although brindles were in the majority, Awards included brindle pointed tricolor and a red. There were no blues in the top ranks this year, but one blue bitch I feel very necessary to note is the Gladstone’s Ch. Aragorn’s Silver Sorceress, a lovely girl I have always admired. I had to do some very painful decision making to find only 5 Awards of Merit and would have loved to be able to reward this bitch also. When I did have to narrow it down, “Ffaegen” was out of coat, and although this does not take away from the bitch’s overall merit, it did make her lacking in finish on the day and I therefore reluctantly had to leave her out. Also very worthy of note were Kathy Harper’s Ch. Tempest’s Classy Chassis, a gorgeous red bitch with everything there, including one of the best fronts I have ever seen, but out of coat on the day. Also very impressive was Ch. Kennebec Hardy Oliver, a deep red brindle dog, owned by Maureen and Rodger Wilson, who looks very much like his father, Big Boy, but was off a bit in topline on the day.

All my choices in for final competition for BOB have a lot to offer the breed and I will be most curious to see how they fare in the show ring and how they produce. In this group was some of the loveliest side movement I have seen in the breed, not to mention the excellent breed type which is, of course, what got them into the last cut.

The Stud Dog class and Brood Bitch class both featured some very stiff competition. These classes can be very difficult to judge and also for spectators to follow. Judging is done on the merits of the get only, although the sire or dam must be checked for disqualifying faults or problems, such as lameness, that would cause them to be excused. The problem is that the ribbons are awarded on the merits of TWO or THREE dogs, not just ONE. This can be quite difficult. If, for example, a stud is presented with a decent

but quite large dog and a nice but quite small dog, where is the continuity? If a dog has a higher tailset and carriage, he might get away with it in the classes. But if a bitch is presented with two or three puppies who all show this same fault, then the group must be faulted for this problem more than they might have been separately. Likewise a dog who comes in with two nice puppies and one poor puppy is also faulted. What we are saying here is, "See what my dog produces! Do you like it?" The winner of the very competitive Stud Dog class was Ch. Zircon's Jack of Hearts (bred by Rochelle and Eddie Stuve, by Ch. Foxholder's Black Jack out of Ch. Zircon's Yolanda of Megwyn CD, owned by Pat Mann, Neila Gelvin and the breeders). His get were lovely — typey, sound and very uniform and including, I believe, one of the Award of Merit winners and one other Special who was in the final cut. The winner of the Brood Bitch class, as mentioned, was the BOB bitch, "Miss Luca", and her lovely off-spring, the Winner's Dog and Winner's Bitch. I felt both of these classes worked out well, with clear cut decisions, which is not always the case with Stud Dog and Brood Bitch.

I must mention one of the true high points of the whole weekend! This was when the Rev. Patrick Ormos gave two lovely prayers for the animals and then proceeded to sing the national anthem. It was very appropriate. What was even more appropriate was that several of the dogs decided to join the singer and there issued forth a delicate and not entirely untuneful "Awoo-awoo"ing which blended well with Patrick's wonderful voice! I was very pleased.

Again I wish to thank everyone for the weekend of a lifetime! I feel very honored to have been allowed to judge your dogs at the National Specialty and at such a spectacular specialty to boot. I think everyone unfamiliar with the quality of the dogs in this country came away very impressed. I know I was impressed. Everyone needs to study the quality and properties of the dogs which won over the weekend — there were not only many similarities, but many of the same dogs used over and over. This is the goal toward which we should be breeding — to produce correct, typey, sound Cardigans which can win under breeder-judges from this country and also from the island of origin, and one which can hold its own under "all-breed" judges in this country also!

Reserve Winners Bitch

Chimera Trudy Trudette

Best of Breed

Judge: Andrea Ternus

Since there was such a large special's entry I would like to list the dogs and bitches making the various cuts. Please note that there were three cuts in dogs and two cuts in bitches.

First Cut in Dogs:

- Ch. Kollage's Elfin Magic
- Ch. Davenitch Surprise Package
- Ch. Winbucks Bach Anrheg Cymreig
- Ch. Pluperfect Princeling
- Ch. Chimera Robyn Emrys
- Ch. Phi-Vestavia Andrew's Pride
- Ch. Chimera Vestavia Cub Run, CD
- Ch. Karina Airdrie Do No Wrong
- Ch. Phi-Vestavia Quasimodo
- Ch. Winstonwil's Priority Mail, CD
- Ch. Rhydowen Barry De Lafayette
- Ch. Sisterwood's Magic Moment
- Ch. Springshire's Jumping Jack

Second Cut in Dogs:

- Ch. Westwyn Bag O' Nails, CD
- Ch. Lomoor's Lo Rider, CDX
- Ch. Sir Gawain of Davenitch
- Ch. Shiloh Ever Ready Eddie
- Ch. Zircon's Sock Hop
- Ch. Kentwood Luc
- Ch. McLea's Mac Iver
- Ch. Zircon's Jack of Hearts

Third Cut in Dogs:

- Ch. Rhydowen Topnotchblu Corian
- Ch. Zircon Bobby Socks
- Ch. Phi-Vestavia Rainbow Warrior
- Ch. Kennebec Hardy Oliver
- Ch. Sisterwood's Brian Boru
- Ch. Phi-Vestavia Nautilus

First Cut in Bitches

- Ch. Cardach Happy's Fyksen
- Ch. Davenitch Glenmar Diamond Lil
- Ch. Megwyn's Short Bred Cookie
- Ch. Kaschew Klassi Taima Bear
- Ch. Kennebec BJ's Rainbow
- Ch. Kennebec Red Oak Richochet
- Ch. Jason's Bijou, CD

Second Cut in Bitches

- Ch. Aragorn's Silver Sorceress
- Ch. Phi-Vestavia Truth or Dare
- Ch. Phi-Vestavia Original Sin
- Ch. Davenitch Shiloh Luca
- Ch. Kollage's Calloo Callay
- Ch. Tempest Classy Chassis
- Ch. Sisterwood's Happy Angel Wings
- Ch. Sunnybank's Lucky Penny

Honorable Mentions to Best of Breed

- Ch. Phi-Vestavia Nautilus**
- Ch. Phi-Vestavia Truth or Dare**
- Ch. Kollage's Calloo Callay**
- Ch. Sisterwood's Happy Angel Wings**
- Ch. Sunnybank's Lucky Penny**

GLENMAR

DAVENITCH GLENMAR DIAMOND LIL
(Davenitch Sand Piper x Ch. Davenitch Shiloh Luca)

Well, a good time was had by all. . . and we do mean all! Lil wishes to congratulate her mama and her littermates for their many successes at the 1992 Specialty. As a young Champion, Lil placed in both of her Sweepstakes classes and made cuts in the Best of Breed Competition on both days. We are very pleased by her efforts.

Thanks to Connie Whan for this special Luca - Piper girl!

Ch. WinBucks Bach Anrheg Cymreig

(Ch. Chandler's Critics Choise x Ch. Zircon's Ebony 'n' Ivory, CDX)

Bach Anrheg ("Little Gift") continued his winning ways at the Jubilee, receiving first in sweepstakes 18-21 months and second in Novice A (his first leg!) under Judges Kimes and Holcomb. A special thank you to breeders Jan Dickson, Charles Harrison and Sue Harrison. Bach is indeed a "gift" which I treasure.

MORGAN, CDX, PT !!!

DEB'S MR. A. MILKMOUSTACHE, CDX, PT

Morgan breezed to his PT, earning his title in under 7 minutes total running time (two runs). With clean runs both Saturday and Sunday, Morgan showed how it should be done, never losing control of his sheep, earning high praise from both testers. Morgan is the first Cardigan "CDX, PT"!

From Sweden to USA

by Peter Clifton

There are many interesting and chilling aspects to judging abroad, none more so than the judging procedure used in different countries. To judge Boston Terriers in Sweden and Cardigans in the U.S.A. within a few days of each other was a challenge that I looked forward to with relish.

It is common in Sweden to start the placements from the bottom, fifth to first, which probably makes it more interesting from the ringside, but I was asked to place every dog in reserve order. Try is some time with a class of fifteen. It is usual to tell your placements to the steward, who makes the necessary notes which you then check together to verify that everything is correctly understood, and finally the steward calls the winners numbers up. I had a large super quality entry to judge at the Boston Terrier Club of Sweden Specialty Show, all followed by excellent company and superb weather, and it was with a little sadness that I had to leave after only three days in order to fulfill my judging engagement in the U.S.A.

On arriving in America it was lovely to be reunited with my family as Anne and my Mother flew out a few days earlier. Mind you, I don't think they were missing me too much as they were late in arriving at the airport to pick me up! I was somewhat relieved to see that my Mother like Joson, showed no ill effects of the journey. Probably age makes them wiser. All of us stayed with Bob Caldwell and Helen Jones and a vast array of Cardigans, and many hours were spent discussing the virtues and faults of their dogs. In many ways it was unfortunate that I was judging there because it meant I had to miss the fiftieth anniversary show - the biggest on record, but the comments on that show have been made by others. While Anne and my Mother attended the Specialty show on all day, I spent my time with Paul Slaboda of the renowned Twinroc Kennels. Paul is a true professional dog man through and through and a competitor after my own heart, which rubbed off in the superb game of ten pin bowls we had. I won't say who won, but sometime I'll show you the trophy!

My judging assignment was the Rubber City Kennel Club, where an entry of 133 Cardis awaited me. The system of judging in the states is not too dissimilar to own, and the AKC supplies one with literature and guidelines that if studied are most beneficial. One or two interesting points from the booklets are 'judges who exhibit are frequently a major source of complaint, this is even more so for judges who handle their own dogs.'

To judge in the normal manner means 'you' are: able to walk round about the ring without crutches, a cane, or the aid of another person; 2. DO not have to judge from a sitting position; 3. are able to bend over to examine dogs in a normal manner; 4. have normal vision (correctable by eyeglasses or contact lenses if necessary to be able to judge dogs at a distance and for marking the judge's book; 5. aren't color blind; 6. have full use of one hand for examining dog and for writing. One is expected to judge twenty to twenty five dogs per hour, but in a strange country its not that easy to achieve, as one has to do all the ring work oneself - like checking every exhibit into the ring, and there is always an AKC representative at the ringside or showground who has to submit a report on the judge. Something that is probably long overdue here in England. The overall quality of my entry, in my humble opinion was good and I found the bitches to be the stronger sex. My Best of Breed was Ch. Phi-Vestavia Truth or Dare, handled by one of her co-owners, Lisa Klepper. This bitch is a comparative youngster but very much full of quality and one of many bitches that could easily command the British ring. She had earlier in the day gone Best in Sweepstakes under Paul Slaboda. Best of Opposite Sex was Ch. Phi-Vestavia Spyglass owned by William and Sheryl Mills, a two year old with very good promise and the Best of Winners was Davenitch Victorian Turret, owned by Diane Proeber, and bred by Connie Whan, whose breeding, to say the least, had a most spectacular and thoroughly deserved time at the Specialty shows. I felt that the grass in our ring could have been shorter, and several of the exhibits found it difficult to master the long surface of the ring. Also quite a number were a little on the lethargic side, which probably could be put down to the time element over the two shows. Many exhibits were too wide in front. Let us remember and especially those who have come into the breed from the Pembroke Corgis, that the correct Cardi front and movement is not like that of the Pembroke. For if when you stand your dog you place his feet two to three inches apart then that's the line he/she should move on. Heads on the whole were pleasing, but there was a tendency in some to be a little on the coarse side and lacking stop. On thing that concerned me was that the tails, when on the move, were carried straight up. Certainly some of the tailset were too high, but others could easily have been corrected by better training. Certainly I found many of the American problems to be universal, but with the excitingly large number of lines available to the breeders many of their problems could be easily overcome.

From Sweden, continued on page 85

Veteran Dogs (1)

- 1 Ch. Vestavia's Marcus Aurelius
(Stockslager)

-- From Sweden, continued --

To me the greatest aspect of the whole trip was in meeting so many knowledgeable dog people of many years standing, including Australian and New Zealand Cardi lovers, many of whom I have admired and heard so much about over the years, but never met. I am certain this vast gathering of Cardi people will go down in the history of the Breed for having such a vast knowledge, experience and dedicated willingness to learn and share from each other.

Letter to the Show Chairpersons

.....

Holiday Inn

August 15, 1992

Welsh Cardigan Corgi Club of America
c/o Mr. Bob Caldwell and Helen Jones
9400 Sperry Rd.
Kirtland Hills, OH 44060

Dear Mr. Caldwell and Ms. Jones:

On behalf of the HOLIDAY INN AKRON/KENT, we wish to thank your organization for choosing our hotel to accommodate your event in June of 1992. We sincerely hope that your arrangements and our participation in your event went the way we had planned. From the hotel's point of view, your event was the biggest and most organized of the summer and we wished that it could be a monthly event, (purely wishful thinking on our part).

Hopefully our staff was as well mannered as your dogs were. It was truly an accomplishment to see so many dogs in one place together all under complete control. We had no complaints to speak of besides the weather that at times did not want to cooperate fully. We hope that the show at Summit County Fairgrounds went as smoothly as our end did. We would also like to extend an invitation for the Holiday Inn Kent to host your next event in this area. I can assure you that we would be honored.

Most Sincerely,
Ronald Reiter
Director of Sales

Cardigan Herding Capers

1992 CWCCA National Specialty AKC Herding Tests

by Nancy Babyak

As proud as we all were of our Cardigans in the breed and obedience rings over the weekend, the opportunity to test our dogs in the herding arena proved equally exciting. The two days of testing not only challenged the dogs, but also provided plenty of aerobic exercise for their handlers. Herding is indeed a team sport!

Warm congratulations to all those Cardis, and especially their nimble owners, who earned legs and/or completed titles over these two days, "Cheers" for a job well done go to herding secretary Cathy Ochs-Cline and to herding chairperson Elizabeth Davis for orchestrating two days of fun and learning. Many thanks are due to the members of the herding committee: Aggie de la Garza, Mary Ellen Brown, and Genie Bishop - all of who contributed to the smooth running of the tests and clinics. And thank you to Anna Kimes and Genie for setting up the delicious lunch buffets each day for the starving masses! Lastly, to our hosts at Hado-Bar Farm goes the Club's deepest appreciation for opening your grounds to us.

Pass or fail, whether active participant or observer, most would agree that two full days of activity and enjoyment were provided to all. Our special guests from the UK and New Zealand especially relished the experience. The AKC seems to be the international kennel club leader in offering herding certification such as this. Our foreign friends were thrilled to watch the Cardis at work at their true vocation. A few were overheard to say it was the "highlight" of the weekend!

Hado-Bar Farm was a lovely site having a large arena with easy viewing, plenty of trees offering shady resting places, and cooperative sheep that were well attended to. Such details are vital to any successful herding event. Over the two days, the schedules were run much the same, with the AKC testing taking place in the morning, followed by a working clinic after lunch. Each day prior to testing the judge conducted a handlers meeting to review the requirements and method of testing. Dogs were brought into the arena according to assigned number, and within the test period each handler was informed of his/her results. The herding test is truly a "working test", and

although each judge may differ in style, the aim of the program appears to be one of skill and guidance. Our judges Lisa Kingsley and Chris Burnam each did a wonderful job. While carefully judging the performance of the dogs, both Lisa and Chris were ever watchful of the livestock. In herding, the proper treatment of the livestock is of utmost importance.

Although the AKC herding program is still in its infancy and very much evolving, we can proudly say the CWCCA is up to the task. Our Cardigans have not lost their herding instinct, and if these two days are a fair indication of herding talent, - we are well on our way!

SEE YA ROUND THE STOCKYARD . . .

“Open Letter to Cardigan Judges”

by Paul Slaboda

As the newly appointed chairman of the CWCCA Public Relations Committee, I've already received letters, calls, comments ect., from the fancy. Thank God I understand Corgispeak because one set of comments came from a Champion Cardigan who asked me to print them for her. She seemed like a nice dog, so I told her I would. The following is commentary from my friend, M.

Dear Judges:

I am confused. How is it that so many of you keep putting up wide-fronted, double tracking Cardigans over me and others like me who display proper front structure and demonstrate the proper front action (a tendency to single-track) as called for in our standard?

I do my best at every show I attend. I stack, I gait freely and efficiently, I bait with enthusiasm and I always put on a good show. I'm beginning to develop a complex! Haven't our masters (the people responsible for the standard and our breed's welfare) sent you copies of the standard? Haven't they sent you a letter describing front-end structure, proper movement and told you how important these aspects of our anatomy are? What else can they do to make you realize that I and some others are the standard and *not* my double-tracking barrel-chested relatives too many of you keep pointing to. I can work in a field all day and not get tired. I can herd and chase and run with ease because God made me structurally efficient for what I was bred to do. I can assure you that my wide-fronted cousins couldn't herd for an hour because their inefficient wide fronts would not allow them to.

Even though I'm just a dog, even I can tell that judging is not rocket science! If you can read a standard and you watch me move versus my bulldog-fronted relatives it should be easy to see the difference unless you just don't take my breed seriously and therefore don't care. I hope that's not the case, because as dog people I'm sure you want the best example of the breed to win. Please take my breed seriously and try to do a more competent job. Do not judge "show-records" lest you rubber-stamp someone else's mistake. Go with what your eyes tell you — not someone else's paid advertisements. Above all, make your own decisions. After all, that's what my master paid for — your opinion.

Well, I feel better now that this is off my correct oval-shaped chest, so I better close. Wow, I just found a sock to play with, so I really do have to run. Thanks for printing this for me as I still haven't figured out how to use the typewriter. I just can't reach the keys!

Love & Licks, M.

Dear M,

You know for a dog you write a really good letter. You probably are too young to know this, but I've been breeding and showing your kind for about 25 years and guess what? I agree with you! I mean, after all M, I know you probably hate losing to your bulldog-fronted relatives, but think how I feel. I've been telling judges for 20-odd years what's correct. It's like walking on a treadmill. You see, M, what happens is many judges do get educated and do a fine job, but as new judges come along, the cycle starts all over again. Then, of course, it usually takes a good example of the breed like yourself to set the right yardstick and not some heavily advertised wide-fronted double-tracker. You know M, the more things change, the more they stay the same!

Maybe what's really needed is for the CWCCA to publish a list of judges who the Board agrees are top-notch Cardigan judges. That way, when a judge's name isn't on that list, he or she will realize they are not doing a very dog job. Well, anyway M, it was nice to hear from you and good luck in your upcoming shows. Keep in touch.

Yours in a Common Cause,
Paul Slaboda

— Standard continued from page 25 —

ulna will give a straight front—this is a definite type fault in Cardigans. If we look from above, in a correct front we will see the feet turn out only slightly. Often we see the pastern turn out. This is incorrect and unsound. They should be as straight and parallel as possible.

When viewed from the side, a well constructed front will be placed well under the body. The standard asks for well laid-back shoulders, for nearly equal length scapula and humerus, and for a shoulder joint angle of nearly 90 degrees. To check out shoulder placement drop an imaginary line from the base of the ear to the ground. Where does it land? In a Cardigan with a good shoulder assembly that line will drop ahead of the front legs. If it drops through them, or behind them, then the front is incorrect and the shoulder is too straight. Note the standard: "Chest — moderately broad with prominent breast bone."

How many of us are trying to pass off our incorrect fronts as correct? We need to breed for the correct front, not settle for what we have. Is the standard wrong? In this case, I believe that the standard is right, but few dogs conform to it. What do you think? *

Ch. Rhydowen Mel Broch O' Gyaki

♥ ♥ Honey ♥ ♥

Honey set off the fireworks a day late on July 5th taking breed under Mr. James T. Bennett (with an entry of 21 Cardigans) and a Group 3 under Mrs. Alane L. Gomez!

We plan to breed Honey this winter.

Baiting Your Owner/Handler

by Deacon Kleppner

Taking your well trained owner/handler to a dog show can be both a fun and rewarding activity. Obviously an important element during this outing is your performance in the ring. I have found that an alert and happy human who knows how to bait often leaves a very favorable impression with the judge. Although different dogs use a variety of techniques to achieve this task, let me share with you some of my thoughts and training methods.

It is important to encourage as much excitement and animation as possible with your show human. Hopefully, he or she will be the type that enjoys the hustle and bustle at ringside, as well as socializing with others of his kind. Just like dogs, some people have an attitude that exudes enthusiasm and “upness” at the show, while others present as lackluster and unintrigued. Certainly the latter provides a more difficult challenge. Well, so much for human temperament.

In the ring, I have found that pricked ears, wagging tails, and inquisitive looks serve as the best stimulus for evoking the desired response in my owner/handler. Here it should be noted that my cousin the Pemi finds himself at a distinct disadvantage since they have little or no tail to wag. That being said, it is my considered opinion that the timing and frequency with which I display the above behaviors greatly influences and reinforces the type of reaction I get from my human partner.

It has been my experience that random looks of expression with pricked ears, especially when the judge is *not* looking, brings my owner to a high level of agitated excitement. Often he will come to attention as well as jerk, twist, bend, and twitch parts of his body in an almost hysteric-like manner of anticipation. At times, this is also accompanied by various gurgling and hissing sounds with rather goofy facial grins which is commonly referred to as expression in humans. This activity I have noticed must also stimulate the hunger drive since he will occasionally put a piece of food to his mouth yet never really swallow. It seems to me that humans derive a great deal of nurturance and comfort from bringing food into the ring. Ironically however, they will at times capriciously pitch these tiny morsels on the ground while never thinking to offer a piece to either me or the judge. Commensurately, it also makes my human feel more at ease to bring a “transitional object” from home to ringside, especially one of my squeaky toys. This, I guess, serves as his “security blanket.” Here again, I have learned that in addition to jerking, twisting, bending, twitching, gurgling, hissing, grinning, and eating, a prolonged look of curiosity will also cause him to start

squeaking my toy incessantly. This display of expression and behavior generally appears to delight and enthuse most judges.

As an aside, I have noticed that judges as a breed tend to be rather amiable but also somewhat impatient and disorganized individuals. Often they will take car keys from their pocket and shake them in my face. I have concluded that these judges are either late for an appointment and in a hurry to finish or that this periodic airing out of the car keys must somehow improve the overall performance of their vehicle.

In summary then, I must again reiterate that timing is of the utmost importance in the baiting response. Never, ever offer pricked ears or inquisitive looks at the first glance of the judge. Over time this will cause your human companion to become lackadaisical and unresponsive to the baiting stimuli. Rather, nonchalant glances away, laid back ears, or focusing all your attention on the cute little bitch standing behind you when the judges are looking, can bring you owner/handler to a fever pitch; making him or her work even harder to elicit the desired behavior and expression that we Cardis like to see in the show ring.

I believe that if all you Cardi show fanciers follow these handy little tips, your time in the ring may prove to be more fun and exciting. Who knows, you and your owner/handler might even come home with some pretty colored ribbons.

About the author:

Deacon Kleppner (Ch. Rhydowen Top Hat n/Tails) finished his AKC Championship in September 1988. He went on to earn his Herding Group III Placement in May 1990. To date, he has accumulated 35 Bests of Breed in very light showing.

Canadian National Specialty Best of Breed

Am/Can. Ch. Phi-Vestavia Pirate's Patch - "Dylan"

(Ch. Joseter Geefax x Ch. Kentwood Lyneth)

Dylan was the Number One Cardigan in Canada for 1991. He continued his father's tradition by slipping down to the States for 7 shows, winning Best of Winners at each one to finish his American Championship undefeated.

Pictured below is Dylan winning the Stud Dog class at the Canadian National with his young children: left to right: Can. Ch. Merrymoon Buccaneer of Mazara, Can. Ch. Merrymoon's Black Tie N' Tails, and Merrymoon's Class Act.

Congratulations to Dylan's owner, Barbara Hoffman and special thanks to Dylan's handler, Linda Mazurkiewicz, who also handled Rupert for us last year in Canada. Dylan puppies born September 25 out of Am/Can. Ch. Rikarlo's American Phi. Inquiries to Patrick Or Cathy, please.

Proudly Presenting the Old Man --

Am. Ch. Joseter Geefax, JW, HC

What can I say about Jeepers? He has been the light of my life since the day he arrived from England 4 years ago. Everything he has done has been special in some way.

American Show Career:

Kanadasaga KC - 9/88

Onandaga KC - 9/88

Finger Lakes KC - 9/88

Rock Creek KC - 10/88

Laurel Highlands KC - 10/88

Virginia KC - 4/89

DeVal Specialty - 5/89

CWCCA National - 6/92

Jeepers kids continue to do well at the National. This year his daughter was Reserve Winners Bitch. Many of the dogs and bitches winning over the weekend were his grandchildren.

The old man is permanently retired from the show ring. His Best in Sweeps is now a wonderful memory and one I will long cherish. It was well worth the dirty looks he gave me while I was trimming his feet! Thank you to everyone who applauded him at the Specialty. It made my day complete to know that he has fans in the fancy. Especially - thanks to Jeepers - for everything!!

Love, Cathy

Saluting the One Who Stayed Home --

Am/Can. Ch. Salvenik Sea Treasure "Rupert"

Because of all the Males we took to the Specialty, Mr. Rupert had to stay home. Even though he wasn't there - his presence was certainly felt. His progeny were responsible for most of the major awards won during the Jubilee weekend.

CWCCA Best in Sweepstakes - granddaughter
CWCCA Best of Opposite in Sweepstakes - grandson
6-9 Dog Sweepstakes class winner - grandson
9-12 Bitch Sweepstakes class winner - daughter
12-15 Bitch Sweepstakes Class - 1st-4th - granddaughters
CWCCA Winners Dog, Winners Bitch, Best of Winners - grandchildren
CWCCA Reserve Winners Dog - grandson
CWCCA Awards of Merit - one son, one granddaughter
RCKC Best in Sweepstakes - granddaughter
RCKC Winners Dog, Winners Bitch, Best of Winners - grandchildren
RCKC Reserve Winners Dog and Bitch - grandchildren
RCKC Best of Breed - granddaughter
RCKC Best of Opposite Sex - son

Rupert remains at stud in Virginia in his retirement home with Connie Davis. We would especially like to thank Connie Whan for finishing Rupert, breeding him to some lovely bitches and for helping make many of the above Jubilee Specialty winners possible.

Rupert is owned by:
Patrick Ormos & Cathy Ochs-Cline

He's Here . . .
The Blue that Sets the Standard

Eng. Ch. Beckrow Blue Cedar, JW

"Woody"

Woody has won 30 Challenge Certificates (under thirty different judges!) and has earned a Reserve Best in Working Group - the highest award ever achieved by a Cardigan in England. Woody is the top-winning blue merle in English history.

Welcome to America Woody!
Woody is at stud with Cathy in Virginia

Imported and owned by
Cathy Ochs-Cline, Patrick Ormos, Sheryl Mills & Sandra Tonkyn

Thank you so much, Sandra.

Jubilee Specialty High in Trial

Aramora Coedwig Whata Gadget

Gadget was drafted from the Coedwig Camp at 7 weeks of age. She immediately began puppy basic training. After a short 11-month training camp, we hoped she was ready for the Specialty. Gadget didn't let us down and won High in Trial with a score of 195 from Novice B. The CWCCA Golden Anniversary Specialty was her first AKC show.
